

Working Together: Cultivating Gender Equity on FRC Teams

Five activities to use with FIRST Robotics Teams to help students become aware of gender issues and strategies for empowering everyone to work together.

**Machine Mavericks, FRC Team 7480,
Kingston, Ontario, Canada**

Machine Mavericks strives to maintain a 50/50 women to men ratio. We believe that young women and men learning to work together is of great value to the 21st-century workplace, and that they can achieve more together than they can apart.

This activity booklet draws inspiration and references Joanne Lipman's 2018 book, *That's What She Said: What Men Need to Know (And Women Need to Tell Them) About Working Together* (New York, William Morrow). Activities written by Tara Sharkey, Mentor, Machine Mavericks.
