

Telephone Activity

Pay close attention to your coach's sign language translations of the key words. Next, one student must take a card, and call on the student next to her/him. This student will watch the message being signed, and then sign to her/his neighbour. Repeat the message around the circle until it reaches the last person, who will sign and speak the message. You may only sign it once (ie. no clarification). See how close you can get to the intended phrase.
